Yeo & Yeo to Expand in City of Saginaw

Yeo and Yeo PC CPA is expanding its 3023 Davenport Ave. location in the City of Saginaw through the purchase of an adjacent building.

The accounting and consulting firm, which provides comprehensive solutions for individuals, businesses, education and government entities, is investing \$275,000 in the project.

Yeo and Yeo will completely refit the building's interior to meet its needs and will also be remodeling the structure's exterior in order to match the existing Yeo and Yeo facility, which is directly west.

The new investment will add two to three new jobs. Saginaw Future is assisting the company and the community with an Obsolete Property Rehabilitation Act (OPRA) certificate, which freezes the taxes at its level prior to rehabilitation. The OPRA program is designed to encourage reinvestment in traditional urban settings.

In 1923, James Yeo and his son, W.L., established Yeo & Yeo in Saginaw, Michigan. Subsequently,

Yeo & Yeo PC CPA is located on 3023 Davenport Ave. in the city of Saginaw.

three generations of the Yeo family have shaped the firm that now is made up Yeo & Yeo Computer Consulting, LLC, Yeo & Yeo Financial Services, Inc., Valuation Services Division, and Affiliated Medical Billing, LLC.

\$1 Million Grant For Thomas Township Project

Governor Jennifer M. Granholm recently announced a \$1 million grant for Thomas Township to make public infrastructure improvements needed for Hemlock Semiconductor Corporation (HSC) to expand its polycrystalline silicon production. The grant is made available by the Michigan Economic Development Corporation (MEDC) and the project is expected to generate \$400 - 500 million in private investment and 300 new jobs.

"The expansion of Hemlock Semiconductor will create essential jobs in the Saginaw area and anchor the company in the community for years to come," Granholm said. "This is another example of high-

Yeo & Yeo to Expand in the City of Saginaw

(Continued from page 1)

Not only has Yeo and Yeo expanded its services, the company has expanded its market area to include locations throughout the state. Yeo & Yeo is headquartered in Saginaw, Michigan with offices in Alma, Ann Arbor, Flint, Kalamazoo, Lansing, Marlette and Midland.

Yeo & Yeo, P.C. is one of the top 100 Certified Public Accounting and Consulting firms in the nation. The firm's CPAs provide tax, accounting, auditing, financial and estate planning services for businesses, individuals, schools, not-for-profits and government entities.

The firm has received numerous awards for excellence and is noted for being an active community supporter.

\$1 Million Grant for Thomas Township Project

(Continued from page 1)

expansion.

"HSC has been a vital part of our local economy and a strong supporter of our community for many years," Thomas Township Manager Russ Taylor said. "The township was proud to work with the company to assist with its most recent expansion to improve the long-term viability of the company and to bring hundreds of jobs to the Saginaw/Midland area."

There are 1,655 local governments within the state eligible to apply for these funds. Projects are approved contingent upon compliance with state and federal requirements.

HSC was formed as a wholly owned subsidiary of Dow Corning Corporation in 1979. In 1984, the company formed a joint venture with two of Japan's largest silicon wafer manufacturers, Shin-Etsu Handotai Company Limited and Mitsubishi Materials Corporation. HSC is the world's leading producer of polycrystalline silicon, a component of photovoltaic cells used to produce solar energy and various electronic devices for the semiconductor industry.

Last November, the company announced it would expand in Michigan thanks to an assistance package put together by the state, Thomas Township, City of Saginaw and Saginaw Future.

Dornbos Expands Under New Ownership

A local commercial print shop is expanding under new ownership. The company, formerly Dornbos Press Inc., was purchased by Ronald Weighman and renamed Dornbos Printing Impressions.

The print shop, located on E. Genesee Ave. in the City of Saginaw, will be adding a new commercial grade printing press in order to expand its capabilities. The project resulted in the hiring of two additional employees.

Weighman also purchased the building through the assistance of the Saginaw County Revolving Loan Fund (RLF), which provided a loan for nearly \$171,000. The Saginaw County RLF is administered by Saginaw Future.

The company specializes in the printing of catalogs, brochures, business cards, newsletters and other print materials. Dornbos also provides

Dornbos Printing Impressions is located on 1131 E. Genesee Ave. in the City of Saginaw.

mailing services union label printing, and PC and Macintosh typesetting.

Dornbos has been an operating print shop for more than 100 years.

The Dornbos investment adds to the ongoing efforts to rejuvenate the E. Genesee Ave. corridor by the public and private sectors. The recently completed road reconstruction project and the upcoming streetscape work (see right column) are positive additions to the area.

Banquet Center Adds to Downtown Saginaw

The Elissa Rose Banquet Center is a recent addition to Saginaw's Downtown area. Lee and Betty Williams, owner of Magic Kitchen, saw an opportunity to renovate a long vacant building that had fallen into disrepair.

Renovations of the 6,000 sq. ft. building totaled more than \$325,000. The facility has been completely refitted with seating for 175 people, a full catering kitchen, and a walk-in freezer and cooler.

Saginaw Future and the City of Saginaw assisted the company with an Obsolete Property Rehabilitation Act (OPRA) certificate, which freezes the taxes at its level prior to rehabilitation.

OPRAs must be located in a qualified local governmental unit, such as the City of Saginaw or Buena Vista Charter Township.

The Williams felt the area was

The Elissa Rose Banquet Center is located on 215 N. Park St. in the City of Saginaw.

under-served for places to hold banquets and large group meetings, at the same time the facility allows the Williams to extend their catering talents.

As a result of the new business, Magic Kitchen, located on 1209 Wadsworth Ave. in the City of Saginaw, was able to retain five employees and increase sales.

Teamwork Funds Streetscape

Recently U.S. Senator Debbie Stabenow, Governor Jennifer M. Granholm and Saginaw Mayor Carol Cottrell jointly announced a \$1 million grant for streetscaping on E. Genesee Ave.

The project was included in the transportation appropriations for the 2006 fiscal year.

"This funding is important for E. Genesee Ave. and for Saginaw because it will enhance the community, spur economic development and most importantly, help create jobs," said Stabenow.

The project will be matched by funds from the State of Michigan and the City of Saginaw, which were used to reconstruct a portion of E. Genesee Ave.

"This is what we had envisioned for E. Genesee Ave.," said Saginaw Mayor Carol Cottrell. "It is a great example of city, state and federal leaders working together to leverage resources."

"We are working to make our cities vibrant places to live and work, and this project will go a long way toward making Saginaw a stronger community," said Granholm.

The federal grant will fund decorative lighting, brickwork, receptacles and benches similar to the streetscaping in Downtown Saginaw's Washington Ave.

Federal Contract Opportunities

General Service Administration (GSA) Federal Supply Schedules are contracts that allow federal customers to acquire more than 4 million products and services directly from more than 8,600 commercial suppliers.

The Saginaw Future Inc. Procurement Technical Assistance Center will be hosting Mike Klewicki, a GSA expert, who will educate potential suppliers on the many aspects of the GSA procurement area and Federal Supply Schedules.

The seminar is intended for businesses interested in federal government contracts. Covered topics will include an overview of GSA, what a GSA schedule is, how to get on a schedule and much more.

Prints Plus Invests in Future

Prints Plus Inc., located on N. Michigan Ave. in the City of Saginaw, has expanded its business through the purchase of a ColorSpan 72 UVX large format printer.

The 17-year-old company specializes in large format commercial printing.

The total project investment is \$150,000 and will create one new job. Saginaw Future assisted the company and the community with an investment incentive.

There are many large format printers throughout Michigan, but the Prints Plus printer is unusual in that it is one of a very few in northern or central Michigan that can print on virtually any material half-inch thick or less and six feet tall or less.

It can print on plywood, glass, cardboard or any kind of plastic, and it produces photograph-quality color images that endure years longer without lamination than traditional print images.

A 32-year in-house printer for the former Baker Perkins Inc. in Saginaw, Norman LaBrenz opened Prints Plus in 1989 after the factory shut down. In 2000, he doubled the size of his business with a 2,772 sq. ft. expansion to make way for new equipment.

Prints Plus Inc. is located at 2301 N. Michigan Ave. in the City of Saginaw.

Buy Michigan First!

In 2005, the State of Michigan's economic plan included the order for departments to purchase goods and services from Michigan companies first, when possible.

Now, more than 85 percent of the state's materials and services are purchased from Michigan businesses.

The state wants to increase that percentage in order to enhance the economy, create jobs for today and tomorrow, and increase savings and efficiency.

The Buy Michigan First initiative is an opportunity for Michigan businesses to learn more about doing business with the state through the Michigan Department of Management and Budget, Michigan Procurement Technical Assistance Centers and other partnering agencies.

The initiative's purpose is to increase awareness on how to do business with the state, increase registered vendors and increase the number of businesses bidding on state contracts.

For additional information, please go to www.michigan.gov/BuyMichiganFirst or call 1-888-734-9749.

Hi-Tech Optical Awarded Contract

Hi-Tech Optical Co., Inc. is a Saginaw Charter Township-based company that manufactures prescription eye glasses, safety prescription and non-prescription eye wear.

Hi-Tech Optical recently received a contract from the Delphi Corporation, to supply all its U.S. plants with prescription safety eyeglasses.

The new contract led to the purchase of additional machinery, a nearly \$200,000 investment, and the hiring of five workers. Saginaw Future is assisting the company and the community with a potential investment incentive.

In 1940, Columbus based White Haines Optical Co. opened an office in Saginaw, MI, and moved to the Christy Way location in 1971.

In early 1987, a group of local

Hi-Tech Optical Co., Inc. is located on 3139 Christy Way in Saginaw Charter Township.

investors teamed up to purchase the Saginaw office from White-Haines, and in doing so, formed Hi-Tech Optical Co., Inc.

Currently, the company is owned and operated by Neil Coon and Thomas M. Ryan. Coon has been with the company since 1953 and is in charge of industrial sales and safety programs, while Ryan oversees corporate planning and operations.

Bricktown Circle Begins

The Saginaw Community Foundation recently awarded \$275,000 in grants to 17 non-profit agencies that will foster arts and cultural development.

Foundation Vice President Kenneth B. Horn calls the development the beginning of the Bricktown Circle, which is a reflection of the arts, cultural and entertainment groups and organizations that are clustered around the Saginaw River.

The Bricktown tag comes from Saginaw's brick producing history.

"The project is an investment in the community, with the hope that arts and cultural tourism will provide jobs, add visitors to the community and create an appealing environment in which to work and live," said Horn.

SFI was able to assist a number of organizations and the community through successful grant applications and advocating for specific projects.

SFI worked with the following:

- 303 Collective - theater and art exhibit group that received funds for heating its warehouse and for converting space to artist studios.
- Lawn Chair Film Festival - the outdoor summer theater received funding for a new projection screen.
- New Covenant Inc. - the non-profit development group received funding for engineering plans for the former Jacobson's Building.
- Riverfront Streetscape Plan - the West Side Business Association received funding for an Old Saginaw City business district design plan in cooperation with the Michigan State University College of Landscape Architecture.

Duperon Invests in Assembly

Duperon Corporation has expanded its business and purchased a building located in Buena Vista Charter Township.

The company specializes in the production of municipal trash-racks, flex-rakes and conveyor systems used for the removal of water borne debris with applications that include wastewater, storm water, pump stations and industrial intakes.

In the past, Duperon was primarily a design company with production being sub-contracted to manufacturers. Due to increased demand for products, the company recognized an opportunity to expand into product assembly.

The Saginaw County Revolving Loan Fund assisted Duperon with its financing needs through a partnership with Duperon's bank. The total project investment is \$750,000 with six new jobs to be created. Saginaw Future is further assisting the company and the community with an investment incentive request.

Duperon has contracts with private sector clients like Campbell's Soup and California wineries, while the majority of its clients are utilities, municipalities and governmental agencies. The company was chosen as one of the "50 Companies to Watch in Michigan for 2006".

Duperon Corporation's new assembly facility is located at 3973 E. Washington (M-81) in Buena Vista Charter Township.

ASE Seeking Wage Information

The American Society of Employers (ASE), in conjunction with Saginaw Future Inc., Saginaw Valley Manufacturers' Association (SVMA), Valley Society for Human Resource Management (VSHRM), Bay Future Inc., and Midland Tomorrow, is conducting a salary and wage survey for employers in the Saginaw region.

The 2006 Mid-Michigan Salary and Wage Survey provides you the tools necessary to address the many day-to-day compensation questions. From compensation data to turnover data this survey is the most comprehensive report on compensation in Michigan.

If you struggle with the lack of reliable local compensation data, or if your company is losing employees, or prospective employees, to competitors due to pay issues this survey may help.

To participate electronically, simply go to www.aseonline.org/mquest06.xls to download the questionnaire. The questionnaire is in an Excel format, so there is no need to install or learn new software. Just save the file and once you have completed the questionnaire simply e-mail the saved file to surveys@aseonline.org

If you are an ASE member, by completing the questionnaire you will receive a copy of the full survey report at no charge. If you complete it and are not an ASE member you may purchase your copy for a discounted rate of \$100.

For more information, please contact the ASE Compensation and Benefit Survey Department at 248.353.4500 or by e-mail at surveys@aseonline.org
