As a service to our business community, Saginaw Future has provided a manufacturers directory for Saginaw County, Michigan. Our mission is to help company and professional researchers find information that will help stimulate business relationships and opportunities.

Companies in this directory are categorized as manufacturing firms with respect to the Michigan Economic Development Corporation's definition:

Manufacturing is the process of converting raw materials, components, or parts into finished goods that meet a customer's expectations or specifications. Companies defined as manufacturers primarily manufacture or process goods or materials by physical or chemical change. (Also included are companies that supply specific services to the manufacturing sector).

Saginaw County, Michigan Manufacturers are listed in alphabetical order on the following pages. An index by company name and an index by municipality can be found in the back of this directory.

Please note that a Microsoft Excel spreadsheet is also available.

Reasonable efforts have been made to ensure accuracy of the information in the directory. This information was obtained from what are generally considered reliable sources. If your company is not listed, or if the information is inaccurate or has changed recently, please contact our office.

Directory Data Sources: Michigan Department of Technology, Management and Budget 2016; Harris Infosource: A Division of D&B Business Directory information pulled 2015; Previous Saginaw County Manufacturers Directories produced by Saginaw Future Inc.; Business web pages; Manta Media Inc. Business Directory; and the Tri-Cities Yellowbook Phone Book.
